Online Requisition System

Our web based requisition system is the key to your clinical laboratory management by connecting physicians and clinicians to the laboratory. The order entry and reporting system is designed to streamline laboratory processes that promote complete and accurate patient care management.

- System features and benefits:
- Order entry and reporting in one system
- Virtually paperless system (Cloud based system)
- Anywhere and anytime system access
- Viewing or printing of lab requisition form and results anytime
- Secured transmittal of patient information and lab reports
- Patient information is saved and always available.
- Smartphone and tablet apps are available.
- Our system is capable of integrating/interfacing to any EMR/EHR available in the market.

Area of Coverage

STARLAB operates with the highest level of efficiency and accuracy. Our customer service department guarantees to return your results as swiftly as possible while keeping your results accurate. We are committed to delivering reliable and precise diagnostic results.

"StarLab is committed to providing our clients with accurate lab reports and 100% confidentiality and guarantee of service"

Our mobile phlebotomy services currently cover the counties listed below. Please do not hesitate to contact us if your county is not listed as we constantly widen our service area of coverage.

STARLAB is dedicated to providing superior service for your medical practice. We are a privately owned full service clinical reference laboratory that operates in the Chicagoland area and the surrounding suburbs. Our facility is equipped with state-of-the-art laboratory equipment and Laboratory Information Systems (LIS) that provide exceptionally fast results for medical professionals.

Mission

To provide the highest quality laboratory services and to offer exceptional support to the community we serve. We must exceed customers' expectation with QUALITY, INTEGRITY, INNOVATION, COMPASSION and COMMITMENT.

Vision

To become the market leader in clinical laboratory industry by providing accurate and top quality medical technology services, advanced health information delivery and unsurpassed customer service.
